## IDAHO LANDS OPEN

ONE HUNDRED THOUSAND  
ACRES IN CASSIA COUNTY.

All Under Water From Snake River Under Government Irrigation Project—Present Opening Is of a Portion of Two Hundred and Seventy-one Thousand Acres—Dam and Canals Cost \$2,500,000.

Boise, Idaho, Oct. 20.—One hundred thousand acres of public land in Southern Idaho were opened for public entry today by the state land board. The tract is on the south side of the Snake river, in Cassia county, and embraces some of the richest and most productive lands in the state. The water for irrigating these lands is derived from the Snake river and is provided in a sufficient abundance to cover the entire tract with one foot of water a month, which is easily twice as much as will be needed. A dam has been built in the river at the head of the great canyon which raises the water about 50 feet above its natural level. By this means the water is diverted into a huge canal which carries the water at the highest possible level westward 70 miles, distributing it all along the way into laterals that reach every part of the vast tract.

The entire area of lands under the canal is 271,000 acres. Forty thousand acres have been opened and taken up by settlers. Owing to the demand for the lands opened up today it is probable that the state board will decide upon an early date for opening the remainder of the tract irrigated by the canal. The irrigation scheme is the largest ever carried to successful conclusion in America. The cost of the dam and canal amounts to \$2,500,000. The climate is very mild in winter and is adapted to the raising of all kinds of grain, vegetables and fruits that may be raised in the northern states.

The cost of the land under this canal is 50 cents an acre to the state and \$25 an acre for the perpetual water right. The payments may be made as follows: 25 cents an acre to the state on making application and \$3 an acre for water for the first two seasons. The second payment of 25 cents an acre to the state may be made at any time within three years upon taking title to the land. The subsequent payments for the water right are the same as commonly paid for annual rentals in other districts, namely, \$2 per acre at the end of the second season and each following year to the eighth year when there will be two annual payments of \$3 each and a final payment of \$4. Improved lands in the irrigated districts of Idaho, in the Payette, Boise and Snake river valleys, are selling for from \$100 to \$250 an acre, although they were sage-brush deserts five or six years ago.

The only clearing required on the land is the removal of the sage-brush which can be easily done for two to three dollars per acre with a cutter that is drawn along about two inches below the surface of the soil. The land may be irrigated, plowed and sown to alfalfa, a quick money crop.

### Steel Men Coming.

New York, Oct. 20.—Elaborate plans have been made for the reception and entertainment of the several hundred members of the Iron and Steel Institute of Great Britain, who are due to arrive in this city tomorrow. While here the Britishers will hold their autumn meeting, which the American members of the institute have been invited to attend. After a brief stay in the metropolis the visitors will make a trip to the steel plants in Cleveland, Pittsburgh, Youngstown and Buffalo, and will also inspect many tin-plate plants.

### New Senior Naval Lord.

London, Oct. 20.—Admiral Sir John Fisher today succeeded Admiral Lord Walter Kerr as senior naval lord of the admiralty. Sir John Fisher was born in 1841, and entered the royal navy in 1854. He served in the Baltic during the Russian war, and in the China war in 1859-60, was present at the capture of Canton and of the Pei-ho forts. He commanded the Inflexible at the bombardment of Alexandria in 1882. In 1897 he was commander-in-chief of the North American station, and in 1899 commander-in-chief of the Mediterranean squadron.

### National Livestock Meeting.

St. Louis, Oct. 20.—The livestock exchanges of Fort Worth, Denver, Indianapolis, Chicago, Kansas City, Omaha, Sioux City and other important centers throughout the country are well represented at the annual meeting of the National Livestock Exchange. The sessions of the convention were opened today and will continue through the remainder of the week. Probably the most important matter to come before the convention is the proposition to raise the commission on a car of hogs from the present price of \$6 a car to \$8 a car.

### A Love Letter.

### \$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Insurance Questions Discussed. St. Louis, Mo., Oct. 20.—At the sessions of this, the third day of the annual convention of the National Association of Local Fire Insurance Agents, papers were presented as follows: "Western Local Agents," John F. Lyon, Tacoma, Wash.; "Shall Agents and Companies Co-operate, or Shall the Making of Rates Be Left Solely to the Companies?" Donald McPherson, Louisville; "A Short Talk on Insurance," Henry W. Eaton, New York. The convention will conclude its business tomorrow.
